

We can only make the best of the great opportunities in our lives when we are ready to reach for them! Seize the moment, live up to your full potential with Flavon!

Flavon 2.0 hands us a miraculous mixture: modern design and direction pointing towards the future that combines the knowledge of our ancestors with the innovations of the 21st century.

FLAVON PEAK is our company's most complex and innovative product that is manufactured on a peculiar production line with unique production technology. A special combination and health supporting synergy of flavonoids, polyphenols, and essential oils of plant origin containing unsaturated fatty acids, the peak of the company group's 14-year-long research on flavonoids! Daily dose, anywhere, anytime, to anyone.

The fruit ingredients are ample sources of colouring agents, polyphenols (flavonoids, anthocyanins), carotenoids, while the physiological, synergetic and antioxidant effects of the vegetable oils are unquestionable.

FLAVON PEAK is an oil-homogenate produced by a high-speed stirring.

It is recommended for every age group, from young children to the eldest, for those taking care of their physical and mental conditions, since it contains a wide range of health supporting nutrients, combines well with other Flavon products, and it is simple to store, to transport and to handle.
