

FLAVON HEALTH STATUS SURVEY

BEFORE and DURING the consumption of Flavon® products

Welcome to Flavon! This survey is for you to track the changes of your health status after you start eating Flavon products. We suggest to fill out the document thoroughly and thoughtfully in order for it to be really useful for you. It can also help you to share your experience with your future members!

The two columns need to be completed separately: the first one before starting consuming a Flavon product, then the second one at least 30 days after the first consumption.

I promise myself that I will take the chosen Flavon product as recommended for the next 30 days without a break.

Please characterize your health status in the table below by the values of the following scale:

1-bad; 2-satisfactory; 3-acceptable, but I would like to change it; 4-good; 5-excellent

(Please fill in only those boxes that apply to you!)
